# I Attachments: Activity as a technical author

## I.1 Awards

I've received 3 internal awards. In addition to that, my work also received a special mention from a community member ([Juju documentation call-out](#)).

## I.2 Writing (documentation sets)

*Below, \* refers to documentation sets that are all part of the core Juju ecosystem. These sets were once entangled and unversioned. I proposed and implemented what I call 'federated' docs: Documentation sets that are independent (so each component can breath and its story can be versioned), but connected (so the user can piece together the bigger story). I also worked with the Engineering Director, the Product Manager, and the Design and the Web team to produce an entrypoint page that connects them all: [juju.is/docs](https://juju.is/docs).*

For the documentation sets prefixed by "(secondment)" also see [I.5](#).
